GUNMEN MURDER ARREST

London, May 16. The climax of a 17manhunt by more than 50,000 British police came today when Scot-Yard announced that the man wanted in connection with the gunman murder in a central London street had been detained.

At the same time, the girl whose photograph was yesterday published all over the country at the request of the Police as being knywn to be an associate of the wanted man, walked into police station at Goole, in Yorkshire, and volunteered a state.

The police description of the wanted man during the search said that he was required only for questioning—the careful legal phrase used during the hunt a few months ago for the sex manine George Heath, who was hanged for a double murderbut seded that he was a danger. dus criminal and believed to be armed.

But when seen by a police constable at Weelwich, south east of London, this morning, the man was detained by the police without incident and found to be unarmed.

The Lendon murder, which started a countrywide manhunt, heralded a short outburst gunmen crimes in Britain. motorcyclist, E. de Antiquis, husband and a father, tried to stop three men running away from a rebbery in central London and was coldbloodedly shot dewn.

He has reason to be proud of his Chinatown. Crime Rate

The crime rate among New York's Chinese citizens (who number more than 300,000) is the lowest of any nationality group in the city. The 600-odd Chinese restaurants have the reputation for being the cleanest. Chinese in New York are law abiding.

Of Chinese food in New York, Shavey thinks it matches the best in Hong Kong. "You can get better locally grown Chinese vegetables in New York than here," he said pointing to the 12 farms on Long Island alone which grow Chinese vegetables exclusively for the city's restaurants.

According to DSI R. Muc-Kenzie, Det. Sgt. So Kwong was on patrol duty at the Yaumati Typhoen Shelter at 3.30 a.m. on May 16 when he saw an unlicensed sampan with two men on board.

On being challenged, Leung. Tin-sing was seen by the detective to jump overboard, while Kwok So rewed away "rather quickly". After pulling the first accused out of the water the detective went after the second man and caught up with him.

When the sampan was search. ed, continued DSI MacKenzie, a pair of pliers and a triangular file was found on board.

In a statement from the dock, first accused denied that he was on the boat, and declared that the Tecate, Pints: two exhibits did not belong to him. The same denials were made by Kwok.

Mr. Latimer found both defendants guilty of the charge of heing "suspected persons or reputed thieves, loitering with intent to commit a felony," not guilty on the count of possession of the pliers and file.

THE COMPLETE SUBSCRIPTION PRICE LIST OF AMERICAN AND BRITISH MAGAZINES FOR THE SEASON OF 1947

EVERY EFFORT has been made to include POPULAR periodicals of every class in this price list, but as there are more than 30,000 periodicals in Great Britain and the United States, it is manifestly impossible to list them all. We believe, however, this is the MOST COMPLETE AND CORRECT LIST EVER PRESENTED TO THE PUBLIC.

MAGAZINES NOT LISTED-This price list shows rates on all publications for which you are likely to have a demand. Prices on any periodical not in this list will be gladly quoted on request. We have records of over 22,000 different magazines and newspapers.

Am. Metal Market . i. . in 198.00 Am. Midlend Naturaliet . UM 40.00

Am. Mineralogist 114 12-98
Am. Motorist 25-70
Am. Municipalities 27 - 2.54

DELIVERY-Conditions have not yet entirely returned to normal. While many publications are back to pre-war schedule, a few magazines require as much as four to eight weeks before the first copy can be mailed. Most professional and technical publishers make the necessary delay to start service on new subscriptions on account of postwar paper and press scarcity.

HOW TO PAY US-We shall gladly accept your, personal check, money order or bank draft, or any other currencles at the market quotation.

NUMBERS-Although publishers to start subscriptions with indicated by the subscriber, most publishers start with the current issue and so back numbers are not guaranteed to be obtainable with each order.

ABBREVIATIONS IN THIS LIST-The abbreviations following the name of each magazine indicate how often it is published.

A-Annually; W-Weekly; M-Monthly: SM-Semi Monthly (or twice a month); SA-Semi Annually (or twice a year); BM-Bi-Monthly, (or every two months); BW-Bi-Weekly (or every two weeks);

Q-Quarterly (or four times a year); Nos.-the number of copies that comprise the subscription. In the case of newspapers; "6 issues" means every day of the week except Sunday, while "7 issues" or D includes Sunday.

RATES ARE NOT GUARANTEED-Owing to fluctuation in costs, publishers often increase prices without advance notice even though we have the most close business connection with them. Should any price be raised, subscriptions will be entered for the length of time the money paid will cover, unless otherwise requested.

CANCELLATIONS-Reason for cancellation must accompany request. Some publishers make refunds on cancellations, while others do not. When a subscription is cancelled and another magazine is ordered in its place, you must pay for the latter in full. We cannot credit the proceeds of a cancellation toward a new subscription for we never know the amount of the cancellation refund until it is received and this is delayed by the publisher for several months. When refund has been received from the publisher we will refund to you.

SAMPLE COPIES FOR FREE PERUSAL-We do not carry all the magazines in stock to meet the clients' requirement on single-copy sales. However, we carry on hand many sample copies particularly those of technology and profession for the free perusal of the prospective subscribers.

INCLUDE POSTAGE-All the prices RATES include the cost of the magazines and postage mailed to any part of the world irrespective of whatever territory the subscriber resides. The following subscription rates are for the period of ONE YEAR and in Hong Kong currency or its nearest equivalents.

LOWEST PRICES GUARANTEED

We agree to meet any offer made by any RESPONSIBLE subscription agency and in addition promise Immediate, Efficient, Courteous

In room I N. Ireland lost a penalty of 800 points (three down) while in room II England lost only 200 points. The match was won on this part score hand. It was South's rebid of Spades which did the damage. South had, up to this stage been rentarkably steady and skilful in bidding. Note the weakness of the three small cards in South's Spades. When rebidding a higher-ranking suit than the partner's its textura should be more solid than this. The question arises was South's rebid really necessary?, If he had passed what could West have said? With such strength in high cards in his own hand could South not have risked a pass—a milder risk probably than his rebid of Spades. I is interesting to note that in room II North did not rush into Two Diamonds over West's double. This was a herious match where retrieving was not considered. Note too East's restrained bidding. The stand-south and of bidding and play in the match reached a high level. The 2 8 skill of the Ulstermen was a

East End Cabbage, Mayfair Caviare

London East End housewives want Strachey to tell them how housewives who have £4 a week with which to pay the rent and clothe and feed a family can be expected to afford carrots at 2/a lb., cabbage at 8d a lb., and
cauliflowers at 2/- each.

Other and less austere food nows comes from Mayfair, where a shop selling caulars at 10 guineas a lb. reports that the demand is far outstripping the supply.

For those epicures who can't get caviare, there's plenty of pata-de fole gras at 35/- a tin, marron glace at 8/6 a lb., and almond oil nt 25/- n bottle. It is unlikely that residents of Mayfair will join the East End housewives in their petition for cheaper carrots, cabbage, and

London, May 16. Hampshire and South Africa drew their cricket match here today, although the tourists, having totalled 315 to gain a first innings lead of 15, could claim an advantage, more particularly as they got rid of seven batsmen for 79 runs when Hampshire batted a second time. Democratic League Peace Appeal

Shanghai, May 17.

The Democratic League spokesman, Lo Lung-chi, at a press conference yesterday, officially announced that the Democratic League members of the People's Political Council will start a peace movement during the PPC session opening in Nanking on May 20.

He declared that the Democratic Lengue advocates the resumption of all-party consultation with a view to forming a coalition government but admitted that there is only a little chance of success, . .

Lo failed to define his attitude whether fighting should be halted 'during the political consultations or after a successful conclusion.

Lo emphatically denied that the Democratic League is taking part in the Communist "United Government," which was reported to be established soon in Kiamusze in North Manchuria saying that at present the Demecratic League is not taking part in any government, adding that the League opposed Com-- munist establishment of their 2 own government since it puts another obstacle in the peace

unity talks. Lo declared that the Democratic League strictly forbids Communist elements obtaining dual membership and those found having dual party membership would be requested to withdraw or be expelled.

Meanwhile, the influential Tal Kung Pao, reputedly close tol clamoured for peace, claiming announced today. that the people's hardships are walls and may fight back.
